

Announcing the 2012 Summer Foodshed Field School

Undergraduate students --apply for this interdisciplinary summer foodshed field school. Five (5) students will each receive a \$3,000 stipend and in-state travel allowance! Ten (10) other students will each receive in-state travel allowance.

- 🍏 The field school will visit major agricultural areas in the state, including farms, ranches, markets, processing facilities, and community food projects in traditional Hispanic, Native American, and other communities. Ten (10) nights will be spent out of town.
- 🍏 Students will develop land literacy, direct knowledge of the value chain, orientation to Hispanic and Native traditions through face-to-face meetings between rural and urban agriculturalists and students.
- 🍏 Mentoring will be provided by faculty and off-campus partners.
- 🍏 Students will conduct original research projects on foodshed related topics.
- 🍏 Interdisciplinary opportunities, such as topics courses, seminar series, social events, and student symposia will be available.

STEP 1: ATTEND an informational open house Friday,
October 7th in Casterter (Biology), room 163A, 11am to 1pm

STEP 2: SUBMIT application by Wed. November 30, 2011 by 5pm

Hispanic and other minority students strongly encouraged to apply.
