

TIP OF THE MONTH

[February 2012]

Tips @ Home Keep it Unplugged

"Unplug your chargers when you're not charging. Every house is full of little plastic power supplies to charge cell phones, PDA's, digital cameras, cordless tools and other personal gadgets. Keep them unplugged until you need them"

love red. live green.

Tips @ Work Green Light Program

"Encourage your company to participate in the EPA's Energy Star program and Green Lights program. In a small office, Energy Star equipment can save more than 3,500 kilowatt hours of electricity per year (about \$265 dollars at current energy prices). Overall, the EPA estimates that the Energy Star Office Equipment program will save 21 billion kilowatt-hours and 2.3 billion pounds of carbon dioxide a year -- the equivalent of taking 807,000 cars off the road."
